Solution against plastic waste

Recycle Bags recycles about three to seven used PET bottles for each of its new bags. Independent research shows that RPET bags have the lowest environmental impact. Recycle Bags supplies corresponding bags which have a long service life, are sturdy, handy and intended for everyday use. An ideal alternative to disposable plastic bags and the newest product in the range is the RPET Fresh Bag, a fruit and vegetable bag made entirely of recycled PET material which allows foodstuffs from the vegetable department, bakery and supermarket to breathe.

Pad for all situations

The assortment of IMTC Manufacturing & Trade GmbH now includes the AXOSelf pad. It adheres to almost any surface, without glue. If, for example, the suction force decreases due to the effects of dust, the back can be wiped off with a damp cloth and thus reused countless times. The pad can be used for a wide variety of applications: As a mousepad, writing pad, footrest or placemat. Axopad® is Made in Germany, phthalate-free, PAH-free and REACH compliant.

Haptic thank-you

Among the new products of the Düsseldorf-based start-up Dankebox is a new box with German beekeeper honey and a wooden honey spoon. In addition, the company is presenting a few surprises that have been in great demand for a long time and that have been developed in collaboration with promotional product distributors and industry customers. The PSI newcomer is offering the well-known best-sellers "Handmade Chocolates", "Premium Darjeeling", "Rhineland Barbecue", "Finest Fruit Spread" and "Mediterranean Delicacies". The paper for the sustainable thank-you box is delivered regionally by the Bavarian paper manufacturer Gmund whilst printing and finishing are done climate neutrally in the region. Assembly is carried out by integrative workshops for people with disabilities. It is sent climate neutrally with DHL GoGreen, on request also direct to the recipient. According to the Düsseldorf-based company, customers such as Porsche, Google, Leica and TUI recommend these high-quality, sustainable gifts "Made in Germany".
